

# Quad-Cityans May Get \$325,000 Personal Property Tax Refunds

By HARRY BARNES  
Press-Record Staff Writer

A U.S. Supreme Court ruling which exempts individuals from personal property taxes in Illinois may mean a refund of approximately \$325,000 to Quad-City area taxpayers, it was reported Friday.

The high court decision announced Thursday overrules an Illinois Supreme Court decision that held unconstitutional a statewide referendum in No-

vember 1970 which exempted individuals but not corporations — from payment of personal taxes.

Because of court litigation involving the exemption question, Illinois tax officials were required to collect the tax in 1972, but the funds were placed in escrow with county collectors pending a Supreme Court decision.

Madison County authorities said the personal prop-

erty taxes placed in escrow with County Treasurer George Musso total \$1.3 million.

While no breakdown of the funds by township is available, tax officials said about 25% — or about \$325,000 — would represent funds held in escrow for taxpayers in the four townships of the Quad-City area.

The question of refunds directly to the taxpayers still has not been settled.

This question is expected to be a major topic of a three-day meeting of Illinois assessing and tax officials to be held in Springfield March 4, 5 and 6, according to James Barton, Madison County supervisor of assessments.

The exemption of all personal property of individuals from taxation is in addition to the exemption of household furnishings and one car in each family,

an exemption that has been in effect since the 1970 tax year.

The 1970 referendum amended the Illinois Constitution to permit exemption of individual personal property, but the amendment was held unconstitutional in Cook County circuit court early in 1971. The case was appealed to the Illinois Supreme Court where the circuit court ruling was upheld.

Former Governor Richard Ogilvie instructed the Illi-

nois attorney general to appeal that ruling to the U.S. Supreme Court, and at the same time, advised Illinois taxpayers to pay their 1971 personal property taxes under protest during the 1972 collection period.

Because assessments for the 1972 tax year already have been extended as the basis for tax bills to be collected this summer, individuals will not be removed

from the personal tax rolls until the 1973 assessment is made later this year for the 1974 collection.

Maurice Scott, executive vice-president of the Taxpayers' Federation of Illinois, said the high court ruling will be of particular benefit to farmers because a circuit court recently struck down new Illinois legislation allowing them to exempt their livestock and equipment from the personal property tax.

While the Illinois Supreme Court had held the personal tax exemption unconstitutional because it was discriminatory against corporations, the U.S. high court said in its ruling: "When it comes to taxes on corporations and taxes on individuals, great leeway is permissible so far as equal protection is concerned. They may be classified differently with respect to their right to receive or earn income."

**FATAL ACCIDENT SCENE.** The auto of Mrs. Alma Nance, of Granite City, is pulled from the ditch at Route 151 and Rock Road after an accident at 11:15 a.m. Saturday in which Mrs. Dorothy Bauer, a passenger in the other car, was fatally

injured. The intersection has been the scene of several fatal accidents since Route 151 was completed south to Niedringhaus Avenue. A broken traffic sign that was leveled in the crash is visible in the foreground.

## Another Fatal Crash at Rock Road, Route 151

Mrs. Dorothy Bauer, 38, of 2909 Logan St., was injured fatally and three persons were hurt in a two-car crash at Highway 151 and Rock Road at 11:15 a.m. Saturday.

The intersection has been the scene of several fatal accidents. Mrs. Bauer was pronounced

dead upon arrival at St. Elizabeth Hospital after the crash. Injured were: her sister, Mrs. Darlene Heth, 34, of Rural Route Two, Box 1162a, Granite City, the driver of the other car, in which Mrs. Bauer was fatally injured; Mrs. Alma V. Nance, 49, of 2806 Harding Blvd., the driver of the other car, and her daughter, Miss Jerr Nance, 13, a passenger in her mother's vehicle.

Police reported Mrs. Heth's auto was southbound on Route 151 and Mrs. Nance's car was crossing the highway on Rock Road when the vehicles collided.

A truck driven by William Taylor, 4242 Division St., was making a left turn from Route 151 onto Rock Road at the time and is believed to have blocked the view of both drivers, police said.

Mrs. Heth was examined at St. Elizabeth Hospital and transferred to Jewish Hospital, St. Louis. She was in fair condition in the surgical intensive care unit today.

Mrs. Nance and her daughter were admitted to St. Elizabeth Hospital and both were reported in fair condition today. The

mother suffered an abrasion to her head and the daughter was treated for abrasions to her right thigh and right ankle.

Mrs. Bauer was born in Iberia, Mo., and lived here nearly all of her life. She was employed as a telephone operator at Consolidated Aluminum Products Corp., Venice, for 10 years. Mrs. Bauer was a member of the Second Baptist Church.

Surviving besides Mrs. Heth are a son, Wesley Bauer, 20, and a daughter, Miss Tamy Bauer, 13, both at home; two brothers, Leroy and E. O. Stark Jr., both of Granite City, and her mother, Mrs. Ethel Stark of Granite City.

Funeral arrangements are given in today's obituary column.

### TRUCK HIT BY TRAIN

Fred Rosenbom, 69, of St. Charles, Mo., was injured when his farm truck was struck by a Norfolk & Western Railroad freight train at the crossing on Broadway in Venice at 7:15 a.m. today. Rosenbom suffered injuries to both hands, his left arm and his right knee. He declined hospital treatment.

## May End Mandatory Jr. College

Seven Central Illinois legislators have joined in a proposal to scrap the requirement that all areas in Illinois join junior college districts.

Sponsors of the plan are Reps. John Lauer, R-Broadwell; Gilbert Deavers, R-Normal; Gerald Bradley, R-Bloomington; Carl Soderstrom, R-Streator; Carl Hunsicker, R-Pontiac; Mary Lou Kent, R-Quincy; and Michael McClain, D-Quincy.

They represent districts which have colleges, universities and private junior colleges, and many of their constituents are fighting the required inclusion in junior college districts.

Every part of the state not in a junior college district is required to join or help form one by Aug. 1, 1974.

About half the state geographically is not in any junior college district.

The present law requires the Illinois Junior College Board to assign any areas which do not act on their own to a district.

Although there is provision for escape from the assignment via public hearings and a referendum, the law requires

## Partney Pledges Tax Economy, Schuler Reversal of Job Trend

Plans for a Community Resources Commission were announced today by Paul Schuler, a Sixth Ward alderman and a candidate for mayor of Granite City.

In the announcement, Schuler said, "During the past eight years our city has developed the symptoms of a dying area. Some of the symptoms are the closing of plants, businesses and governmental installations employing over 2,500 people, many of whom were and are residents of our town."

"The present political leadership has failed not only to stop the closings but has failed to attract any new industries to replace those closed. The vacant store windows and locked doors in our downtown business area are sad testimony to the inadequacy of our present mayor."

"This process must be reversed if we are to provide adequate employment for our working people, adequate schools for our children and an adequate business district."

"The most important thing in solving this problem is to provide the city with vital, innovative, aggressive leadership, with a mayor who will get Granite City moving again — moving up instead of down."

"We must have a leader who will bring in new jobs to replace those lost instead of presiding over the loss of still more jobs."

"I plan to use a Community Resources Commission to put it all together."

"I intend to use the talent available in our plants, labor organizations and civic groups to plan the revitalization of the city. I will send teams out into the field to recruit new plants and new capital."

"These will provide new jobs and a much expanded tax base so that the city, school district, park district and other municipal agencies will have increased revenues."

"With these funds, we will be able to execute much needed programs, such as renewal of old areas and improved and expanded police protection without additional tax increases."

## School Board Filing To Start Wednesday, Opposition Expected

Filing of nominating petitions by candidates who plan to seek election to board of education posts in the April 14 school elections will get under way in the three school districts of the Quad-City area Wednesday.

Filing of petitions will continue through March 23. Voters of the Granite City, Venice and Madison school districts will elect a total of seven school board members in the April balloting — two each in Granite City and Venice, and three in Madison District 12.

Candidates may file petitions at the school administration offices of their respective districts during regular office hours throughout the 24-day filing period.

Petitions are in circulation in Granite City and in Venice, but school officials said no petitions yet have been picked up in Madison.

Carl Maclos, incumbent member of the Granite City School Board whose term expires this year has been circulating petitions as a candidate for re-election. He is one of two rural members on the Granite City board.

Robert Crider, the other Granite City School Board member whose term expires this year, has not obtained petition forms, it was reported. Other petition blanks have been picked up by Elvin Hoekstra of 244 Cleveland Blvd., and by Jim Smith, Bill Thomas and Cecil Williams, none of whom listed addresses in obtaining the forms.

In Venice, where the board of education posts of Richard Bailey and Mrs. Jackie Leatherman expire, petitions have been obtained by both Bailey and Mrs. Leatherman as candidates for re-election.

Mrs. Leatherman now is serving on the Venice School Board by appointment to the unexpired term of Fred Durst Jr. who resigned early this year. Durst's term was scheduled to expire this year.

The three expiring board members of the Madison area are those of Harold T. Fisk, now board president; Chester McManaway, board secretary, and Sherrell Byrd.

School Board members are elected to three-year terms. The board in all three districts are made up of seven members each.

## 3 Pupils Struck By Auto Today

Three East Madison children enroute to school were struck by an auto at 8:30 a.m. today at the traffic signal at Sixth Street and McCambridge Avenue.

Taken to St. Elizabeth Hospital were Gene Lavasco III, 11, of 2039 Fourth St., and Timmy Welty, 8, and Dawn Welty, 6, both of 2013 Fourth St.

The boys were transferred to Cardinal Glennon Memorial Hospital, St. Louis.

The driver of the auto, Alan C. Straub, Columbia, was charged with reckless driving and with a traffic light violation.

The Welty boy suffered contusions of the scalp. His sister, Dawn, who first went home after the accident, was examined in the emergency room late this morning. The Lavasco boy was unconscious upon arrival at the hospital.

The Welty children reside with their grandmother, Mrs. Lottie Lynn. The Lavasco boy is the son of Mr. and Mrs. Eugene Lavasco.

### MOTORCYCLIST INJURED

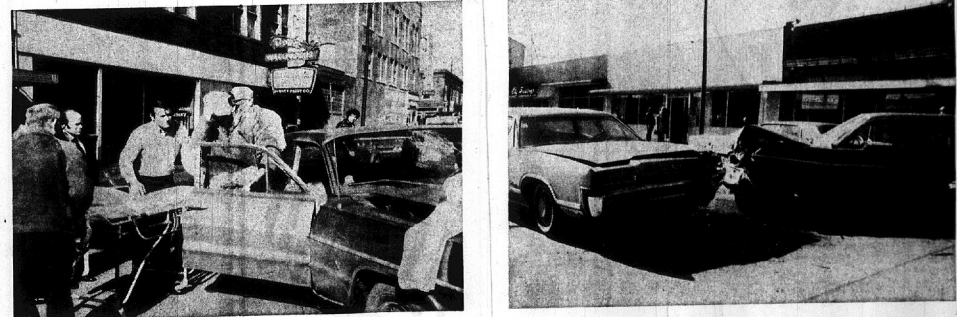

Allen Smith, 23, of 4140 Division St., was taken to St. Elizabeth Hospital at 2:35 p.m. Friday with injuries sustained in a motorcycle accident. He suffered abrasions and contusions to the lower left leg and was transferred to Jewish Hospital, St. Louis, following X-rays.

and Mrs. Gladys Reeves, 2033 Washington Ave., a passenger in an oncoming station wagon, were hospitalized.

# Ex-Resident Cited For Program Work

Mrs. Joyce M. Parker, a former Granite City resident, has been awarded the first Outstanding Employee Award ever given by the State Compensation Fund of Arizona (SCF).

When making the award, General Manager William K. Foster said, "It was intended to recognize Joyce's continuous outstanding contribution to our development and training program at the fund, as well as her successful efforts in making the fund more visible — both here in the valley and across the country."

"She has played a major role in the fund's highly successful efforts in employee development and training all the way from new employee orientation to managerial level development programs."

"She has been able to develop the needed programs in every area and recruit highly qualified, and often eminent, instructors. Perhaps just as important, she has been able to sort out the unnecessary, the redundant and the trivial. Her programs for the fund have become well known, copied and even envied among other state agencies and in the private sector."

Hired as a recruitment officer in late 1967, she completed five years of employment with SCF in late 1972. She was named and still is Administrator of Training and Development when that section was added just five months after she was employed.

She also is the first woman president of the 160 member Valley of the Sun Chapter, Inc. of the American Society for Training and Development.

# Tax Measures Piling Up 4 Area Couples Obtain Divorces

Copley News Service Springfield—The 78th Illinois General Assembly is well under way and many measures dealing with taxation already have been tossed into the legislative hopper.

Three bills have been introduced dealing with the state income tax.

Two of the bills seek reductions in the present state income tax rate. One bill, sponsored by Sen. Thomas Merritt, R-Hopewell, would reduce the rates for individuals from 2.5% to 1.25% and on corporations it would go from 4% to 2%.

Sen. David Regner, R-Mount Prospect, is sponsoring legislation which drops the individual rate to 2% and the corporate rate to 3.5%.

Rep. Daniel Pierce, D-Highland Park, has introduced a bill which provides an income tax exemption for tuition paid for a student attending elementary, junior high school, high school, college or university. This includes either public or non-public schools regardless of where the school is located.

Two somewhat similar bills have been introduced in the Senate and House dealing with the elimination or exemption of the sales tax on food and drugs. The Senate measure is sponsored by Sen. John Linebaugh Knapp, D-Virginia, and the House bill is sponsored by Rep. Eugene Schickman, R-Arlington Heights.

Sen. Stanley Weaver, R-Urbana, is sponsoring legislation which provides for a system of grants for sales taxes paid by those having an income of \$12,000 or less.

Rep. Samuel Maragos, D-Chicago, is sponsoring legislation to provide for credit on the state income tax for sales taxes paid on food, drugs and medicine.

Three bills have been introduced concerning the property tax bills.

Sen. Cecil A. Partee, D-Chicago, has one bill which seeks to establish a scale on the assessment of property where improvements are made. A similar bill is being sponsored by the House by Rep. Ralph Caparelli, D-Chicago.

The two lawmakers are sponsoring similar bills, which would require notice and public hearings by the Local Government Affairs Department before county multipliers become final. Sen. Harber Hall, R-Bloomington, is sponsoring legislation dealing with the assessed valuation.

Maragos also is sponsoring legislation which seeks to abolish the special and common only called "earmarked" funds in the state treasury. These funds include the motor fuel tax fund, the fish and game fund and the driver-education fund.

Certainly before the deadline on bill introduction arrives several more bills on taxes will be introduced.

# Courts Terminate 3,709 Cases, Set New Record

Madison County Circuit Court terminated 3,709 cases during January, about 400 cases above the average, it was reported by Willard V. Portell, clerk of the circuit court.

Portell said it was the best month to his knowledge and was achieved by a combination of calls, trials and settlements. He commented:

"On Dec. 1, when the Honorable Fred P. Schuman became chief judge, several new formats were initiated, and although they are not conclusive at the present date, they have been very successful and will be continued throughout the year."

"One of the changes involved law cases over \$15,000.00 which were assigned and divided among five judges for trial. We have had very good results in January, and in February these results will be much better in these cases which are the most time consuming."

"There has been a clean-up docket in chancery and miscellaneous remedies, and 223 of these cases were terminated during January."

"There has also been very good results for the month in felony cases where 99 of these cases were disposed of, which is a record number for any one month. The chief judge gives

priority to felony cases of the four-month rule, and by trying more felony cases it was not possible to try as many law cases as we would have liked to."

"Judge Schuman has appointed the Honorable Kent Trowe chief associate judge, who is in the process of setting up procedures in cases involving misdemeanors, small claims, ordinances, traffic and conservation violations; and comparable procedures to the circuit judges in cases involving \$1,000 to \$15,000."

"With cleaning up the docket of old and dormant cases, the rest of the year will be geared to try the more recent cases. Under the new system, the judges are trying cases whenever they are ready, regardless of the date of filing. We have abandoned the old rule of taking cases in chronological order."

"It can be noted that 194 divorce cases were terminated during the month and there was no clean-up docket in this category (182 decrees were terminated)."

"With the docket calls in the associate cases, we feel the court system will gain in efficiency and it is our hope that we will be current in all cases within a short period."

# Illinois Heads Project To Aid Gifted Children

Illinois has been selected to administer a national project for training educators of gifted and talented children, according to State School Superintendent Michael J. Bakalis.

The project, the National State Leadership Institute for the Gifted and Talented, funded by the U. S. Office of Education (USOE), is under the executive direction of Dr. David M. Jackson, who serves as associate superintendent for research, planning, and development in Bakalis' office.

"The plan calls for a four-week workshop," he said, "with 16 states participating. Similar workshops would be held in succeeding years until all states are covered."

Jackson pointed out there are approximately 2.6 million tal-

ented and gifted children, but fewer than 10% currently are in classes designed for their needs. He said 21 states have no programs for such students.

"In the one case, the handicapped child, without specialized and individualized instruction, may become frustrated in his inability to master difficult concepts. But the gifted child also may become frustrated by subject matter which is so simple for him that it is meaningless."

"The gifted child, like the handicapped one, must have learning experiences geared to his own level if he is to learn with satisfaction."

Bakalis said that Illinois' participation in the administration of the project was consistent with the state constitution's mandate to educate all persons to the limits of their capacities.

## MORE ABOUT Jr. College

erendum, the timing would make it difficult to leave a district.

Junior college opponents in the seven legislators' areas raise two objections:

The existence of other educational institutions which are partially duplicated by a junior college.

The cost differential. High school and unit districts now must pay tuition of residents who attend junior college elsewhere.

They argue that operating a junior college district locally is a greater burden on the property taxpayer.

Having to join a neighboring junior college district would also mean higher taxes, bill sponsors say.

They are also critical of newly-established junior colleges for greater emphasis on traditional academic subjects than on vocational curriculum.

"After all, they don't give Ph.D.s in plumbing," was the way one of them put his criticism.

A three-car accident in the 1800 block of Delmar Avenue at 1:50 p.m. Friday, resulted in injuries to three persons, two of whom were admitted at hospitals.

Police said an auto operated by Frank B. Rogers, 54, of St. Louis, traveling south on Delmar, struck an open door of a parked vehicle, owned by Mrs. Evelyn Holmes, 29, of 1612 Sycamore St., then hit a north-bound station wagon operated by Virgil D. Reeves, 51, of 2033 Washington Ave.

Rogers, who sustained a deep cut to the top of his head, was transferred from St. Elizabeth Hospital to Barnes Hospital, St. Louis.

## News Notes

The AFL-CIO said Saturday a flood of imports eliminated more than a million American jobs in the last six years and threatens to make the "Made in U.S.A." label obsolete on everything from baseball mitts to basic metals.

Losses have included 20% of the market for steel, 25% of auto sales, 35% of television sets, 60% of phonographs, 80% of radios and nearly all tape recorder sales, the national labor group said.

It urged new restrictions and taxes on U. S. firms that ship their technology and money abroad to produce goods.

Reacting to a charge by Illinois Racing Board Chairman Anthony Sciarano that over half the winning horses in the state last year were found to have illegal medication in their systems, officials of two harness racing groups said Saturday they will as the racing board to adopt a program of pre-race testing for all horses.

Illinois Attorney General William J. Scott said Saturday that persons who paid personal property taxes in 1971 and 1972 are entitled to refunds whether or not they paid under protest.

He urged the 102 counties to return to taxpayers at once the \$30 million held in escrow, and said the taxpayers are entitled to accrued interest on their payments.

Steel mills in the U. S. produced more raw steel last month than in any other January in history—12,384,000 tons, it was announced during the weekend.

The Census Bureau said Saturday the proportion of young men attending college dropped sharply as military draft calls declined. Plans for the new bank were announced Feb. 20 by the First Granite City National Bank.

The state bank's capitalization of \$1,000,000 would consist of \$400,000 in capital stock, \$400,000 surplus and \$200,000 reserve for operating expense. There would be 40,000 shares of stock with a par value of \$10 each, Bartell noted.

Organizers are Dr. George T. Wilkins Jr., Vasil Tarpoft, Henry W. Ross, John W. Reese and Paul H. Lichtenberger, all of Granite City.

## State Plans on Zero-Based Budgeting After This Year

By AL MANNING  
Copley News Service

Springfield—Dan Walker campaigned on a pledge to be an administrator and he was elected governor without telling the people many of the details of his specific programs he would enact if elected.

Then, during the first weeks of office, he tossed the ball to the General Assembly by calling for "legislative initiative" in solving some of the state's more pressing problems.

Now there is no escaping the big one—the state budget which he continually attacked as he walked across the state. In early March, the plans for the next fiscal year will be laid bare with an eye on the \$500 million saving talked about during the campaign.

Whether he succeeds with his budget plans depends a lot on Hal Hovey, the 34-year-old former Ohio director of finance who the governor imported to serve as director of the Bureau of the Budget.

The articulate Hovey left a reasonably comfortable position in Ohio because he could learn more "in the caldrons."

He'll receive some heat, too, just like his predecessor John McCarter, who was accused of looking into a crystal ball to reach his decisions during the Ogilvie years.

Much of the first Walker budget will be based on McCarter's work because the governor didn't have his own man, Charles Woodcock, on the job until December, when a lot of the initial planning was already completed.

Woodcock, a former state treasurer, took a leave of absence from Horace Mann Educators to direct the budget during the transition of administrations.

Hovey's approach to budgeting will be somewhat different in this state because in Ohio the tax law, the school law, the school aid formula and the job appropriations are put into a single piece of legislation.

Although that's not possible now, State Sen. David Reppert has introduced a bill which would permit it in Illinois in the future.

Another change after this year will be a switch to "zero-based budgeting," a practice which some say has been used successfully in private enterprise to eliminate waste and reorder priorities.

Hovey describes the method simply as "refusing to accept past spending as a mandate for the future."

"Incremental budgeting starts with the old being good and you fight over the increases, not the base," Hovey said.

## Alderman Candidate Ruled Out of Race

The Granite City Electoral Board has ruled inadequate the nominations of Robert Earl Gates, 2677 E. 23rd St., who had filed petitions as a candidate for alderman in the First Ward in the April 3 municipal election.

The ruling eliminates opposition to incumbent First Ward Alderman William Dallas who is a candidate for re-election.

City electoral board made up of Mayor Donald Partney, City Clerk Robert Stevens and the alderman of the ward, Robert E. Brewer, Walter Norn, held that Gates' petitions contained a number of signatures that had been obtained in the Third Ward instead of the First Ward.

Objections to Gates' petition were filed by Mrs. Herbert Milton who was represented at the hearing by an attorney. The objections were filed Feb. 15, although the deadline for challenging nominating petitions was Feb. 3.

# Warrior Cagers Drop Two, End Season with 6-16 Mark

Granite City High School's basketball Warriors lost two of their last three games during the weekend to end their regular season with an overall 6-16 record and a conference mark of 3-11.

At home on Friday the Warriors lost to the Edwardsville Tigers 78-51, while on the road Saturday East St. Louis won 64-38.

In Friday's action the Tigers held quarter-time scores of 16-11, 38-27 and 58-41, with Edwardsville outpointing Granite City 20-10 in the final period.

From the floor GCHS made 23 in 40 attempts for 58% and the Flyers were 36 out of 70 for 51%.

By the charity line the Warriors were an even 50% hitting five of 10 shots and the Flyers were 75% with six out of eight. The Warriors committed 11 fouls and their opponents with nine. Edwardsville dominated the backboards 61-19 with 25 offensive rebounds.

Height helped as 6-8 Tiger forward Tom Gammill was high point man with 20.

Tom Vrenick led the Warriors in scoring with 14 points followed by Brett Champion 10, Mike Martinez 6 and Don Lloyd, Bob Page and Mark Gauen 2.

The Granite City junior varsity cagers won their game in overtime 79-77 as Ken Bertrand tallied 22.

At East St. Louis on Saturday the Flyers held quarter leads of 12-9, 28-17, 45-22 and then outpointed the Warriors 19-16 in the final period.

Flyers Elbert Dixon, 6-5 forward, was game high pointman with 19, followed by his teammate, 6-7 center Herbert Noble, with 18.

The Warriors shot 37% from the floor with 17 buckets in 46 tries and the Flyers shot 49% making 29 out of 61 attempts.

In charity tosses the Warriors made four in seven attempts and East St. Louis six out of eight. Officials called 12 personal fouls against GCHS and seven against the Flyers. GCHS had 13 turnovers to the

Flyers 11 and the East Side cagers dominated the boards 35-21.

Scoring for Granite City were Vrenick 12, Page and Peterson 8, Mark Gauen 5, Martinez 4, Champion 3 and Greg Gauen 2.

"The name of the game is shooting and that is something we have not been doing well," Don Deterding, cager coach for the Warriors, said. "Vrenick did an exceptional job, but had 10 rebounds against some much taller players."

"We tried holding the ball and shooting only layups the first half Saturday, but had to come out shooting hard the second half. We have some good players but need that one key man that can hit when he shoots to spark the team."

The local junior varsity cagers lost to East St. Louis 82-64 with Cary Simpson scoring 18 points for Granite City.

The Warriors travel on March 10 to the Collinsville Regional tournament when they face the host team at 7:30 p.m.

# Venice Tripped 56-55 for Only Loss of Cage Season

A perfect basketball season is an elusive goal as the Venice High School Red Devils found out when a 25-foot jump shot with four seconds on the clock by Summer Sullivan derailed all chances.

The Venice cagers lost their final game of the regular season at home Friday 56-55, finishing with a 24-1 regular season record.

"We were certainly down after the game," Venice Coach Bill Ohlendorf said. "Our players have not had to get over a defeat all season. It is a sad experience for them."

Sumner's Blaine, who was the game's high point man with 20, sank three field goals in the final two minutes.

The Venice scoring leader, Ron Henry, who has averaged 24 points a game, was held to 19 by Sumner. Other Devils scoring were Dan Severs 12, Tony Sitton 10, Ray Mosby 9 and Cornelius Wiley 5.

The Devils now play in the Class A regionals at Dupo. Being seeded No. 1 Venice drew a bye and will play at 7 p.m. Thursday against the winner of Tuesday's Lebanon-Columbia

"We have five days between our loss and when we play in the regionals on Thursday to get over it. The defeat will determine the character of the boys we have playing and I am betting they are going to get themselves together and will be more determined than ever to win at Dupo."

The quarter scores favored the Bulldogs 17-15, 36-22 and 44-40.

In the final period Venice fought back and outpointed Sumner 15-12. The Devils gained a 53-48 lead with two minutes and 52 seconds on the clock.

Sumner's Blaine, who was the game's high point man with 20, sank three field goals in the final two minutes.

They are charged with aiding Cosgrove was accused of transporting some of the escapees from St. Louis to Illinois.

### Library Reference Service Is Planned

Bob Black, Granite City librarian, noted plans for an extensive reference service during a talk to Granite City Rotarians last week.

It will be possible to provide answers for a wide variety of questions and to locate almost any work ever published, he said. Details are to be announced when preparations for the reference program are completed.

In presenting a biography while being inducted into the Rotary club, Black reported he was schooled at Brigham Young University and his last position was as head of adult services at the Alton library. He holds a master degree in library science.

Larry Dew, director of the Quad-City special education district, reported attending Monmouth College and teaching two years in Freeport and two years on Guilford before coming here three years ago. His interests besides special education administration include Asian studies.

Also inducted was Dr. Jack Miller, dentist, who attended St. Mary's School in Madison, Quincy College, Washington University and the University of Illinois-Chicago.

The installation was conducted by Dr. George T. Wilkins Sr., a Granite City Rotarian and past district Rotary governor.

With President Richard West presiding, the club heard reports by committee chairmen on 1973 plans. Projects are to include expanded distribution of Rotary "four-way test" plaques.

District Gov. Kenneth C. Bulkeley was unable to be present due to a death in his family, but he did visit Granite City March 13.

It was decided to sponsor a "chill day" March 20 and to participate in the 1973 district Rotary convention April 8-10 at Springfield. It was noted that a district dinner dance and cruise is set for June 19 in Peoria.

# LACLEDE STEEL COMPANY RECOGNIZES SAFE WORKERS

The Laclede Steel Company employees whose names and pictures appear on this page are living proof that the most effective safety device is the trained, safety minded employee.

Each year for more than a decade Laclede has recognized those steelworkers who have worked for five years or more without a lost time accident. A lapel pin is awarded for each five-year period of accident-free employment.

Pictured and listed below are the employees who received this safety award at the end of 1972.

The combined total of no-accident experience for these employees is 705 years.

In addition, 365 other Laclede employees at Madison not pictured or listed, completed a combined total of 5,653 years of service without a lost time accident. Their individual safety records range from one year to thirty-eight years.

Laclede is proud of these safe working employees and we think their friends and neighbors will be, too.

## New Educational Standards To Take Effect Next Year

By JOAN MURARO  
Copley News Service

Springfield — New recognition and supervision standards for Illinois schools, due to become effective before the next school year, apparently will go into effect as scheduled even though they are drawing fire from some school personnel around the state.

In fact, a spokesman in the office of state School Supt. Michael Bakalis said that while one group of objectors is reportedly readying a resolution asking the State Legislature to prevent the rules from taking effect, another group reportedly is readying another resolution in support of the new standards.

Legislators with whom he has talked have indicated they don't expect either resolution to actually be presented, according to Richard Small, director of recognition and supervision in the school superintendent's office. "It looks like they're just making noise," he said.

Small said it is his understanding that the main objection to the standards is a provision the school districts must file copies of their program plans with the superintendent's office by Sept. 1, 1973. Some school districts maintain this is too soon, Small said, while others maintain the state superintendent should not be demanding such programs at all.

"Actually, the idea of planning what a district wants, and how it is going to go about getting it, isn't new," he added. "Many districts in the state already do just that. What is new is the requirement that they now all have to do it, and by next Sept. 1."

Small said that the position of the superintendent's office is that Bakalis not only has the statutory authority to impose such requirements, he has a mandate to do so.

Normal procedure calls for filing the proposed regulations with the secretary of state and they can become effective 10 days later. Actually, the department plans to file the guidelines within a matter of days, Small said, and will specify an effective date of next July 1, with compliance required by Sept. 1.

The new guidelines will also require higher standards of training for school nurses and counselors, but these are long range programs aimed at upgrading the professions over a period of time, Small said.

Currently, many school nurses have only nursing degrees earned in a couple of years, Small said. Long range—and mean very-long range, like 10 to 15 years—plans will require school nurses to hold baccalaureate degrees.

Over a shorter period, counselors in the future will be required to have 32 semester hours in associated courses and full certification as counselors from the state certification board, instead of the 18 hours now required. Some of these changes are being required by the board, and not the superintendent's office, Small said.

The time period will be less for counselors because there are fewer counselors in the field who don't already meet the new, higher requirements, Small said. Since colleges and universities are cooperating, those going into counseling programs receive the new requirements routinely.

Those in the field, he added, will be given adequate time to obtain the additional hours of credit.

Small said he had seen no signed documents protesting the rules and didn't know who

was specifically involved. He said he doubted reports that the entire Illinois Association of Superintendents of Educational Service Regions were objecting, though he believed some individual members might be among those signing protest resolutions.

"If they should file the resolutions," he added, "it would raise some interesting questions, whether as a matter of fact the Legislature has the right" to interfere.

OPEN MONDAY THRU SATURDAY 9:30 A.M. - 9:30 P.M.

Groomsmen Photography  
**MRS. JOSEPH BERKGIGLER**, who was married Saturday afternoon at St. Elizabeth Catholic Church. She is the former Miss Susan Marie Bauza, a daughter of Mrs. Betty Stecher of Granite City and Andrew Bauza of Tooele, Utah.

## Susan Bauza Becomes Mrs. Joseph Berkgigler

The wedding of Miss Susan Marie Bauza and Airman Joseph Allen Berkgigler, U.S. Air Force, was solemnized at 2 o'clock Saturday afternoon at St. Elizabeth Roman Catholic Church.

Performing the double-ring ceremony before an altar decorated with urns of white spring flowers was the Rev. John Savoree, assistant pastor.

Music was played preceding the ceremony. Selections included "The Wedding Song," "The Wedding Prayer," "Communion Hymn" and "Ave Maria."

The bride is a daughter of Mrs. Betty G. Stecher, 1712 Bremen Ave., and Andrew S. Bauza of Tooele, Utah. Parents of the groom are Mr. and Mrs. Harry Berkgigler, 2323 Zippel Ave.

Given in marriage by her father, the former Miss Bauza chose a pure white sateen gown designed with a fitted bodice, featuring lantern sleeves, and a wide ruffle encircling the hem of the skirt. Delicate lace appliques, etched with pearls, trimmed the neckline and the skirt.

She wore a Juliet headpiece of lace to secure a finger tip veil edged with matching lace and she carried a colonial bouquet of white pom poms and red and pink Sweetheart roses, festooned with white satin ribbon.

Miss Donna R. Cain, maid of honor, and Miss Diane Parrish, bridesmaid, were gowned in identical dresses. They were made with lantern sleeves set in sheer pink pucker shirred bodices and A-line skirts of ruby red velvet. Fragile white lace edged the neckline and sleeves and created a design on the fitted bodices.

Juliet Caps in ruby red velvet held in place red veils and each girl held a colonial bouquet of pink pom poms and red

and pink Sweetheart roses, accented with pink ribbons.

Martin A. Berkgigler attended his brother as best man and Gary Powers was the groomsman. Duane Parrish and Kenneth Simon seated the guests.

Mrs. Stecher chose to wear a soft pink knit gown, full-length, for her daughter's wedding. Trimming at the neckline was created of seed pearls and she wore matching pink accessories and a corsage of red Sweetheart roses.

The groom's mother, Mrs. Berkgigler, selected a floor-length dress in off-white knit, accented in gold, and complemented with red and gold accessories. After flowers were white carnations tipped red.

A reception was held at the Fellowship Hall of Central Christian Church immediately following the ceremony.

Both young people were graduated from Granite City High School. The former Miss Bauza was employed as a clerk-typist at AVSCOM in St. Louis prior to her marriage.

Airman Berkgigler attended Belleville Area Junior College before entering the Air Force in September. He is stationed at Kelley AFB, San Antonio, Tex., where he is an aircraft mechanic.

The newly married couple will reside in San Antonio.

## The SCHERMER BULLETIN ..

Another big Cornish Hen Sale last week. We ran out again. BUT, we have one more shipment coming in today, so we will go "one more time" this week.

We had a big response to our Steak Sale. Sold out of almost everything by nine Saturday night. Just the way we like it. The free steak knives seemed to be a big hit also. Speaking of Steak, you remember when we came back from San Francisco and reported a store there selling Steak for \$6.49? You'll never believe this, but last Wednesday a lady called and asked if "OUR" Steaks were still \$6.49. We thought she was kidding, but our Mary Theban assured me that she was serious. At any rate, we hope Mary straightened her out.

We found a home for Pringles. This item has been selling so well that we wound up with a permanent floor display which we don't particularly like. So we made adjustments in the snack department and now have the "big" display right in the shelf.

How do you like our new Frozen Food Department? We have added over 100 new items with more on the way. Give us your opinion on this big improvement to our store; and, if there are now any items in Frozen Food that we don't have that you would like us to stock, tell us about it. We now have the space.

If you heard any of our new "in-store" interview commercials on WGN-U we would appreciate hearing your comments about them; good, bad, or indifferent. We have been trying to communicate the message that we sell "GOOD" meat at "LOW" prices and that we still have friendly butchers behind the counter to help you pick out just the right meat for your family. STILL NO PRE-PACKAGED MEAT AT SCHERMERS.

### New Financial Institutions Reflect Confidence In Community, Spotlight Needed Traffic Changes

It is encouraging to note the plan for a brand new financial institution, the Colonial Bank of Granite City, in the Pontoon-Marvillie Roads area, as well as the previously-disclosed plan to build a new Nameoki area office structure for the Madison County Federal Savings and Loan Association in 1973-74.

Along with the strong Madison and Central Granite City financial institutions, it is logical that additional facilities be provided in the northeastern area of the Quad-Cities.

Such steps add to the imperativeness of widening and extending Marvillie

### Price's Role as Joint Atomic Energy Committee Chairman Is One of Most Crucial in the World

An indication of the duties and stature of Congressman Melvin Price of this district, 1973 chairman of the Joint Congressional Committee on Atomic Energy, is afforded by the subject matter of hearings in progress this month.

The commission has been considering the Atomic Energy Commission's 1973-74 financial authorization, including biological-environmental research, nuclear materials production activities and physical research.

In addition, current public hearings deal with the complex topic of arrangements for construction and operation of a demonstration liquid metal fast breeder reactor.

The project, to be located near Oak Ridge, Tenn., is of immense importance in determining whether the nation and world are going to be able to cope with rapidly-increasing energy needs. Contracts which are proposed involve the AEC, Tennessee Valley Authority, Commonwealth Edison Co., Project Management Corp. and Breeder Reactor Corp.

### Added Tax Burden on Business Is Now 'Neutral'

Comment by the Taxpayers' Federation of Illinois related to Thursday's end of the personal property tax on individuals but not businesses:

Many entertain the philosophy that increased taxes on business have a neutral effect, because business passes on such increases as costs of doing business, and recovers them by increased prices to the consumer.

### Bond Ceilings Proposed for Home Rule Governments

By MAURICE W. SCOTT  
Executive Vice-President  
Taxpayers' Federation of Illinois

This session of the 78th Illinois General Assembly should give priority to passing legislation giving people some referendum control on the issuance of general obligation bonds. It is by no means certain that the new home rule counties and home rule municipalities.

As a result of the Illinois Supreme Court's recent interpretation of applicable bond provisions of the new State Constitution, the people have lost this

### Non-Silent Middle Income Group Vital to Democracy

Copley News Service

Former President Carlos Romulo of the Philippines again proved to be a perceptive statesman when he said in an interview that American-style democracy had failed to take root in his country because it has no American-style middle class.

This explanation for the imposition of martial law in the Philippines suggests a major reason why political developments in all of Asia are so often puzzling and disappointing to Americans.

The Philippine Republic now seems to be abandoning its experiment in democracy patterned after the system in the

United States and, from all accounts, many Filipinos approve.

South Koreans last year voted for a new constitution curtailing their own freedoms.

The one-candidate election of President Thieu in South Vietnam in 1971 led many Americans to wonder if our support of the Saigon government was justified.

Mr. Romulo reminds us we are looking at the East through Western eyes.

Our democratic institutions took centuries to develop.

They stand on the ethical values of a large, educated and energetic middle class—artists, businessmen, farmers and professional people.

Such citizens are equipped to shoulder the responsibilities of elective, representative government and can support it with the fruits of their labor.

Both Americans and Europeans have tried to export their political ideas to Asia.

But they could not create a middle class to buttress them in nations which had developed with a privileged class at the top, poor and illiterate masses at the bottom, and little in between.

History shows the result.

Mainland China is under Communist dictatorship.

The Republic of China on Taiwan, though organized under a parliamentary system, owes much of its stability to the autocratic hand of Chiang Kai-shek.

Even the Japanese, who have developed a middle class resembling that in the West in many respects, cling to old social institutions and turn to their emperor as a symbol of national unity.

To varying degrees, the parliamentary governments of Indonesia, Malaysia, Thailand and India—though styled on American or European models—are thin overlays on old systems in which monarchs, tribal chieftains and religious leaders remain real wielders of power.

It is ironic that Mr. Romulo should be pointing out the importance of the middle class to the success of American democracy at a time when that vast segment of the U.S. population is being called the "silent majority."

That middle class is indeed the strength and conscience of our system of government.

History is showing that nations without such a group must settle for something less than the freedom we enjoy.

We might also consider that if our middle class majority remains too silent, American-style democracy could stop working even in America.

### Keeping Elections in Perspective

(First of Two Columns)

Advice to new lawyers before the death penalty was banned is said to have included: "Do your best for your client, but don't let him pull you directly into the middle of their activity."

If amended to journalism, it might say: "Care a lot about the people you write about, but don't let them pull you directly into the middle of their activity."

The thought returns with the approach of another election campaign, leading up to April balloting for 66 public offices in Quad-City municipalities, school systems, townships and park districts.

The related advice to candidates might be: "Try hard, but keep your comments in perspective."

In the final analysis, some of you are going to win and some of you are going to lose. Other segments of the community, including the news media, are going to be around long after the dust of the election battles has subsided.

If this sounds a bit "semiotic," to use the title of a current best-selling novel, so be it.

During the past 28 years, we've seen a lot of election hopefuls rise and fall, a lot of candidacies develop and subside. Most of the aspirants have been sincere and essentially fair in their approach.

A few have taken the position that "I'll lose, I'm going to carry many as possible other people and their reputations crashing down with me."

We don't have much respect for that sort of reckless attitude, either ethically or factually. As Abe Lincoln said, "You can't fool all of the people all of the time."

One trick of this kind is to take a letter or an "expose" to one out-of-town newspaper or another and then label a hometown paper as "prejudiced" because it did not publish it. Or, if it publishes it, to ask why it did not originate it.

A lady telephoned us Friday afternoon to say a "whisper campaign" is being started, charging that we rejected a letter from a Granite City candidate as "too hot to handle."

Simply not true. He was in our office a few times last year.

Let's face the facts. Sometimes it needs to be done, and it's up to us to make sure it is.

I challenge the paper to help fight through the haze of rumor and apathy enshrouding this project.

It's not a political issue; the most who plan and direct such projects are independent of politics, so let's show them that we, the concerned public, demand that something be done.

Anyone wishing to sign the petition may stop in at the Fina station located at Nameoki and Johnson Road and ask to do so.

BRUCE PROVENCE

WORK TOGETHER FOR DRAINAGE SOLUTIONS

To the Editor:

It seems strange to me that an elected official of Granite City can misinterpret a simple contract from the state of Illinois by the Doherty drainage problem and try to hold it up for some personal reason—and then have the intestinal trouble to show up at the council meeting when it was explained by a state official.

It looks like we may get part of our problems solved in spite of some individuals.

I am very pleased that Mayor Parney had the foresight to call the chief engineer from the Division of Waterways to the council meeting to go over the contract and set everyone straight.

It is now time for us to all work together and forget our differences—or set and sink as we have been doing.

Let's hope it is the former and not the latter.

## Today's Health News

Published by the American Medical Association

"Sudden infant death syndrome" (SIDS) is the name given to an elusive killer that claims between 10,000 and 20,000 babies a year in this country alone. Few people have heard of the condition because very little is known about why these infants die. They seem quite well on being put to bed, and are found dead without any signs of struggle or of having suffered any pain.

Even coroners and physicians, ignorant of current knowledge on SIDS, have at times gone along with the idea that the parents are guilty. More than one mother has been indicted for the murder of her child when he or she was found dead without any signs of struggle or of having suffered any pain.

SIDS occurs all over the world. Its victims range in age from no more than a few days to as old as nine months, though most are from four to six months old. The victims sometimes are relatively undernourished, but this is by no means the rule. Also, SIDS tends to strike poorer families more often than rich families, though again this is only a trend.

The latest evidence suggests it may be related to a low-grade

respiratory infection. It occurs more often during colder weather, and occasionally the infant had a sniffle or signs of a minor cold in the days preceding his death. It is definitely not caused by milk allergy or some of the other real or imaginary conditions such deaths have been attributed to in the past.

In addition to the tragedy of losing these youngsters, SIDS can be far more devastating for parents than losing a child from a better known disease. Because the child had been so healthy, they can't get it out of their minds that they are somehow to blame. If they heard the child cry in the night, but didn't wake up to him, they are torn by remorse.

Other relatives and friends may hesitate to accept a diagnosis they have never heard of, and so create a network of suspicion around the bereaved parents by implying that their carelessness, rather than sickness, was at fault.

## Wife of Navy MIA Honored at BPW 'World Affairs' Dinner

About 80 area business women and their guests paid tribute last week to the wife of a missing-in-action Navy officer, a learning disabilities teacher whose selection as "Young Career Woman of the Year" was announced, and a Japanese national who now calls Granite City her home.

The events took place at the Granite City Business and Professional Women's Club "World Affairs" dinner meeting at Charlie's Restaurant.

Principal speaker was Mrs. Tillman (Suzuko Hoshino) Lindsey, formerly of Tokyo, Japan, who with her husband and a 9-month-old daughter reside at 2637 Edwards St. She came to the United States in 1971.

Mrs. Lindsey, one of a family of ten children, described life in her homeland, noting that students are required to qualify to attend high school through a testing program. Classes are held six days a week, she said, adding that most workers are on the job the same number of days.

The speaker reported the pay scale continues to be "low" according to U.S. standards, with women still remaining in such employment as store and office clerks or factory workers. Some women now are branching out into other areas — key punch operators and similar positions, she noted.

Among the most interesting adjustments Mrs. Lindsey has had to make here concerned the "large sky." She said that in Japan, especially the Tokyo area, smog-like conditions prohibit a clear view of the sky most of the time. With the assistance of Mrs. Genevieve Grady, World Affairs chairman, the speaker displayed several articles brought from her home country, including a unique doll carved from a single block of wood, large detailed figurines, a Japanese ceremonial kimono and obi and a musical instrument which converted into a music box.

A standing ovation was accorded Mrs. Sandra (Noeth) Innes, whose husband, Lieutenant Roger B.

Innes, U.S. Navy, has been missing in action since Dec. 27, 1967.

The young Granite City woman was presented a bouquet of red roses and spoke briefly of her gratitude for the return of the prisoners of war and the help given her by area residents during the past five years. She was accompanied to the dinner by her mother, Mrs. Fred (Mary) Noeth.

Since Lt. Innes' two-man aircraft disappeared over North Vietnam, no word has been received about the radar officer or his pilot. He had arrived off the coast of Vietnam on a U.S. aircraft carrier just five days before his plane failed to return from the overland mission.

The officer volunteered for service in the Navy Air Force in October 1965, five months after graduation from Culver-Stockton College at Canton, Mo.

His wife is a 1964 graduate of Granite City High School and attended Culver-Stockton College. The couple was married in August 1966.

Mrs. Innes was employed at the First Granite City National Bank until late last year when she decided to resume her education at Southern Illinois University at Edwardsville, where she is a fulltime student.

In introducing the Granite City club's candidate for District 14 "Young Career Woman" honors, Ann Burton, club project chairman, noted the nominee's "outstanding background and achievement record."

Mrs. Moran is married to George J. Moran Jr., a law student at St. Louis University. The couple is planning to make their home in Granite City.

She is the daughter of Mrs. Eleanor Vollmer of Litchfield and the late James Vollmer. Mrs. Moran received a bachelor of science degree in education from Southern Illinois University at Edwardsville, majoring in special education for the emotionally disturbed.

She is continuing her studies towards a master's degree in Learning Disabilities at SIUE.

A standing ovation was accorded Mrs. Sandra (Noeth) Innes, whose husband, Lieutenant Roger B.

and taking related courses at other universities, including St. Louis University, club members were informed.

Mrs. Moran spoke on the subject "The Challenge of Maturity in which she described her philosophy of "good" student-teacher relationship and the commitment required of a teacher toward her profession and pupils.

An international candlelighting ceremony was conducted by Mrs. Grady, assisted by Mrs. Verna Lengyel. Vari-colored candles, representing different countries, were lighted throughout the room as part of the brief service.

Mrs. Ruth Milhouser gave the Club Collect and the pledge of allegiance was led by Mrs. Margaret Aufderheide. Mrs. Pauline Wolf, president, welcomed the guests and introduced special visitors.

For her wedding, the bride wore a white eyelet gown designed by her mother, featuring a high neckline trimmed with ruffled lace. The ruffles extended down the front of her dress and encircled the hemline.

Matching lace edged the cuffs of the long sleeves, closed with tiny pearl buttons, and a delicate pink ribbon accented the waistline. She wore a shoulder-length mantilla style veil of eyelet fabric trimmed with ruffled lace. She held an old fashioned floral bouquet.

Matron of honor, Mrs. Terry Irene Reynolds, a sister of the bride, chose a blue blouse trimmed with cream puff silk worn with a long grey skirt.

The bridesmaids, Misses Sharon and Barbara Cousins of the bride, Margie Settemore and Barbara Berger, were dressed in identically styled ensembles as the honor attendant, created with pink blouses and full-length grey skirt. All the attendants carried bouquets of multi-colored flowers, festooned with ribbon streamers to match their gowns.
